

BEST AVAILABLE COPY**Remark**

Applicant respectfully requests reconsideration of this application as amended. Claims 1, 5-8, 11, 13, 16-18, 20, 27, 28 and 31-36 have been amended. Claims 2, 14, 29 and 44 have been cancelled. Therefore, claims 1, 3-13, 15-28, 30-43 and 45-67 are present for examination.

Election/Restriction

The Examiner has stated that all claims are withdrawn from consideration as being directed to a different invention from the claims as originally filed. The Examiner provides extensive quotations from the claims as presented in the last amendment but does not compare these claims to the claims before the last amendment. It would appear as if the primary change in the last amendment was to change the "radio active signal" to a "radio active packet."

While applicants do not understand that there is a difference, in the interest of expediting prosecution, Applicants have amended the claims to recite that the packet is part of a signal. In other words the earlier claims directed to a signal are now amended to further describe the signal as including a packet. This is believed to traverse the rejection

Conclusion

Applicant respectfully submits that the rejections have been overcome by the amendment and remark, and that the claims as amended are now in condition for allowance. Accordingly, Applicant respectfully request the rejections be withdrawn and the claims as amended be allowed.
